

Sirs,

I am a big fan of XM Radio and wish to continue pay for this service. Since I am a truck driver the weather and news that I receive at any time is a great benefit. I would like to enter my opinion in this issue and encourage you to reject the NAB's petition 04-160. This is a pay service, not a free service, and if I wish to pay for this programing, I have that right. They should not be able to dictate who can and cannot broadcast.

Thank you.
